Chapter Social Meeting and Continuing Professional Development

Hi all,

It's October 30 and as the kids decide what they will wear for Trick or Treat our Indians are still playing ball! That does not get said often around here and I for one am thrilled to be saying it.

I changed the date of our October meeting knowing that it would coincide with the World Series.

Join us next Wednesday Nov. 9 at Tony K's in Berea for our social meeting. We will discuss the Tribes victory over the Cubs, eat some terrific food and learn a little from Dino about Autocad tricks.

Hope to see many of you there.

Lou Veverka

GO TRIBE.

Nov. 9, 2016

**Tony K's in Berea
841 W Bagley Rd,
Berea, OH 44017**

\$5.00 per person

Schedule

5:30 Socializing

6:00 Dinner (off menu)

Followed by: Autocad
methods by Dino Lustri and
open discussion

The University of Akron wins national award.

The National Council of Examiners for Engineering and Surveying (NCEES) presented The University of Akron's Surveying and Mapping Program with a \$10,000 award to recognize its excellence and to further develop the program on Oct. 21.

"We are ecstatic to be honored and recognized with this award," says Gary Schuller, professor and director of the program. "Our students and faculty are exceptional and this award is a reflection of their hard work and our current development of the program."

On hand for the presentation on were, from left, Farzan Ahmed and Dean Ringle of the State Board of Registration for Professional Engineers and Surveyors; Gary Schuller, professor and director of UA's program; Dr. Elizabeth Kennedy, interim dean of the College of Applied Science and Technology; David Lautenschleger, assistant professor, surveying and mapping; and Larry Shubat, professor and program director of Geographic and Land Information Systems Program..

RANDOMLINES, OCTOBER, 2016

Congratulations to the team at the University of Akron on winning one of the national prizes for Survey Education. They run a good program there and they deserve the recognition. I

it is time to start thinking about winter, especially FEBRUARY when a warm getaway would be appreciated, especially at an indoor water park in Sandusky. The PLSO Annual Meeting will be held at Kalahari (you know, PLSO North) Resort again. Great facility and a great chance to get your CPD's out of the way. Besides that, a couple of days away in FEBRUARY is not a bad idea. I bet even the kids would enjoy it.

This is late October and election day is only two weeks away (thank God) and maybe then we can rest our ears a little after two years of acrimony.

I can't stress how important your vote is. People all over the World would love to have the opportunity to freely choose their leaders the way we do. Millions of people do not have that right. With us, it is not so much a RIGHT as it is a DUTY. Your DUTIES to our republic far outweigh your RIGHTS. Without us performing our DUTIES, we would have no RIGHTS.

A large percentage of the United States population will shun their DUTY because "it is too hard to vote, I am too tired to go to the polls" or some other lame excuse. If you do not participate, you have absolutely no RIGHT to complain about the outcome.

I don't care who you vote for or what issue you support or oppose, get out and do your DUTY. VOTE.

John E. Dailey. P.S. Retired, Past jdaileye@sbcglobal.net

TRADE IN & TRADE UP

NOW THROUGH JUNE 30, 2015

Exchange your out of date robotic motorized instrument (up to 10 years old) and get a complete scanning and surveying package including MS50, data collector, office software, pole, prism, and tripod.

\$55K (\$14,600 savings)

MS50 Features:

- The fastest, most accurate "hybrid" total station available, with robotic surveying/imaging/scanning capabilities.
- With a 1" robot that scans 1000 pts/sec, the MS50 is designed for high precision surveying, yet easy of use to meet your daily needs.
- Enjoy simple workflow and data management without special training. Points, linework, images, and 3d points clouds easily integrate into most major CAD packages.

Terms & Conditions:

- Any Topcon/Trimble/Leica/Spectra Brand Robotic/Motorized Instrument, less than 10 years old and in working condition, will be accepted under this program. Traded-in goods must be received within 30 days.
- Trade-ins are on a one-for-one basis and may not be combined with volume discounts.
- The Trade-in program is only applicable against the purchase of new equipment.
- Other conditions may apply.

NEW!

SP60 GNSS Receiver

Simply Versatile

The SP60 solution offers **superior flexibility** for any survey demand, from simple post-processing via standard UHF or unique Long Range Bluetooth base and rover systems, to complex RTK and CenterPoint RTX capable rover solutions.

Combining all-signals-tracking and processing Z-Blade GNSS-centric technology and L-band capability for satellite-delivered CenterPoint RTX service, the SP60 provides supreme measurements and accuracy under any conditions.

Key Features:

- Extended Survey Scalability
- New 240-Channel 6G ASIC
- Z-Blade GNSS-Centric
- CenterPoint RTX Capable Rover
- Internal TRx UHF Radio
- Long Range Bluetooth
- Anti-Theft Protection
